

September 28<sup>th</sup>, 2009

Dear Donor:

“They ask for nothing. Yet give so much in return.”

Thanks to your donation of [REDACTED] Save-A-Pet continues its mission to rescue and care for stray, abandoned, abused and neglected dogs and cats, such as Wishbone, for as long as it takes until we find loving, forever homes for them.

***Wishbone***

Age: 7

Wishbone loves belly-rubs and "recreational" brushing, although occasional grooming is all his low-maintenance coat needs to shine! He received basic obedience training and loving socialization from this home, but seems to have had an earlier puppy-hood that instilled certain fears in him. Therefore, he'd thrive in a home where he can snuggle with adults. He loves volunteers taking him out for long walks and gets very affectionate with them. Wishbone was diagnosed with diabetes and is now on insulin. He really would do so much better with an adoptive or permanent foster home. Please don't let him wait too long to meet you!

Thank you for giving unconditionally to the dogs and cats whose lives are saved and enhanced through the dedicated efforts of Save-A-Pet No-Kill Adoption Center.

Sincerely,

The Board of Directors  
Save-A-Pet, Inc.
